PLAN OF ACTION

Our plan is to ideate and create short form pieces of content that are visually engaging, dynamic and demonstrate the quality of not only the sheds themselves but also the process and service you provide. This content will then be posted across platforms with geo-targeted ad spend on Meta social media platforms. For efficiency and ideal speed of customer acquisition I recommend a minimum \$1,500 spend for month one.

CLIENT GOALS

Drive sales via social media marketing and targeted ads while simultaneously increasing brand awareness and setting you apart from your competition.
